

Labor Market and Career Information

December 2019

Finding Data Faster

With TexasLMI.com

Easier Navigation

The screenshot shows a web interface titled "LMI by Category" with a gear icon. It lists six categories with descriptions:

- Local Area Unemployment Statistics (LAUS)**: View monthly and annual civilian labor force, employment, unemployment, and unemployment rate estimates by state, county, metropolitan area, workforce development area and many cities, by place of residence.
- Current Employment Statistics (CES)**: Generate a report for monthly and annual nonagricultural employment data by industry for Texas and metropolitan areas.
- Quarterly Census of Employment and Wages (QCEW)**: View and generate a report for quarterly data derived from the state's unemployment tax program measuring employment and wages by industry by state, county, metropolitan and workforce development areas.
- Occupational Employment Statistics (Wages)**: Provides current annual and hourly wage estimates for up to 800 detailed occupations by state, metropolitan and workforce development area, and industry.
- Projections**: View and generate a 10-year forecast for employment by industry and occupation for the state of Texas and each of the 28 workforce development areas.
- Staffing Patterns**: View the specific occupations and employment that make up each industry within Texas and each of the 28 workforce development areas.

- Access all Labor Market and Career Information data programs from a simple menu – at the left-hand side of the homepage.
- LMI by category searches use a common, intuitive format to help users find data.
- Switch easily from one data set to another.
